

Dr Kilpatrick & Partners
Kibworth Market Harborough Fleckney

The practice accepts patients from a large rural area of roughly 150 square miles, indicated by the peach coloured area on the map.

We also accept patients to the west and south of our area, indicated by the pink area on the map, but this is on a concessionary basis, and our extended area does not form part of our official practice area.

All other places are designated as out of our area, and patient registrations are subject to special rules about home visiting.
